About the YLS/CMI 2.0™

Determining risk of reoffending in juvenile offenders is crucial when deciding placement and developing case plans that help keep youth out of handcuffs. The Youth Level of Service/Case Management Inventory 2.0™ (YLS/CMI 2.0™) is a strength-based, gender-informed, risk/needs tool that reliably and accurately classifies and predicts reoffending within male and female youth populations. This inventory draws from interviews, official reports, and other collateral information to produce a detailed evaluation of the risk and need factors of youth. The results provide a linkage between risk/need factors and the development of a personalized case plan that may be continually reviewed and updated.

Quick Reference

Age
12-18

Administration Time
30-40 minutes

Scoring Options
Handscored, Online

Administration Type
Semi-structured Interview
Professional-completed

Qualification Level
B

Support Difficult Decisions

Using a widely validated risk/needs assessment can provide support where judgments are questioned. Deployment of the YLS/CMI 2.0 has the potential to increase system equity and reduce inappropriate decision making.

Trust Your Results

The YLS/CMI 2.0 features an updated geographically representative normative sample of 12,798 male and female youth. The tool also demonstrates strong reliability and validity, including accurate prediction of reoffending.

Determine Areas of Strength

Provides an opportunity to evaluate positive attributes so that strengths may be highlighted and built upon in service delivery.

Accurately Assess Female Offenders

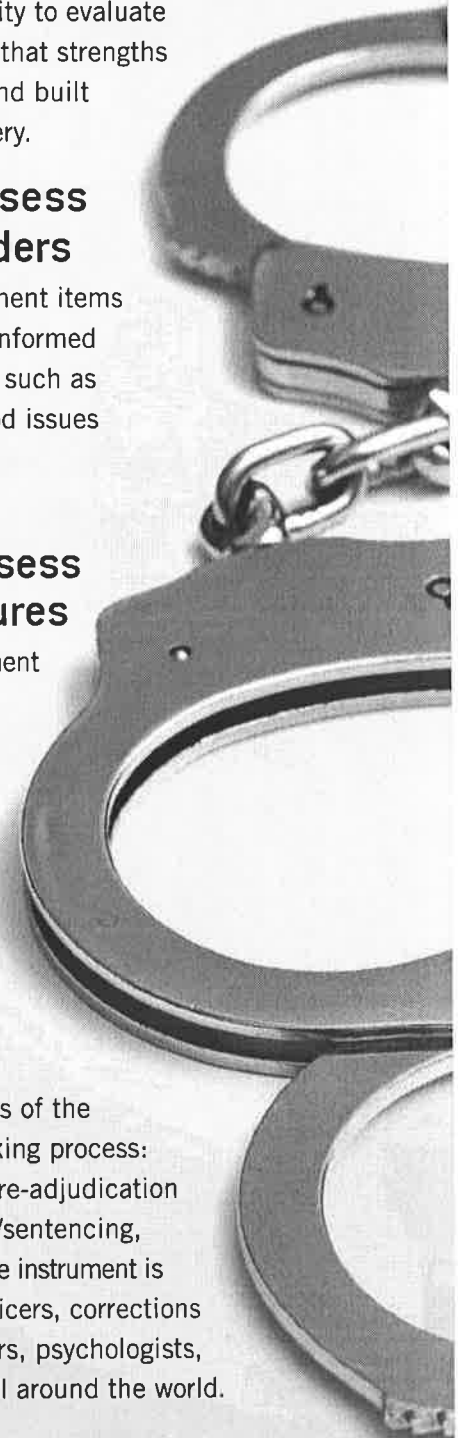

Includes new assessment items that address gender-informed responsivity factors – such as pregnancy/motherhood issues and physical/sexual victimization issues.

Accurately Assess Different Cultures

Contains new assessment items that address culturally-informed responsivity factors and includes minority representation in the sample.

Useful in a Variety of Settings

Relevant to all phases of the judicial decision making process: pre-trial detention, pre-adjudication diversion, disposition/sentencing, and case planning. The instrument is used by probation officers, corrections officers, youth workers, psychologists, and social workers all around the world.

How the YLS/CMI 2.0™ Works

Administered using structured interviews, official file records, and other collateral information, the 42 YLS/CMI 2.0™ items cover the “big eight” risk/need factors supported by research.

Components

The information gathered is used to complete the following 7 components:

- Part I:** Assessment of Risks and Needs
- Part II:** Summary of Risks and Needs
- Part III:** Assessment of Other Needs and Special Considerations
- Part IV:** Overall Risk/Need Level and Professional Override
- Part V:** Program/Placement Decision
- Part VI:** Case Management Plan
- Part VII:** Case Management Review

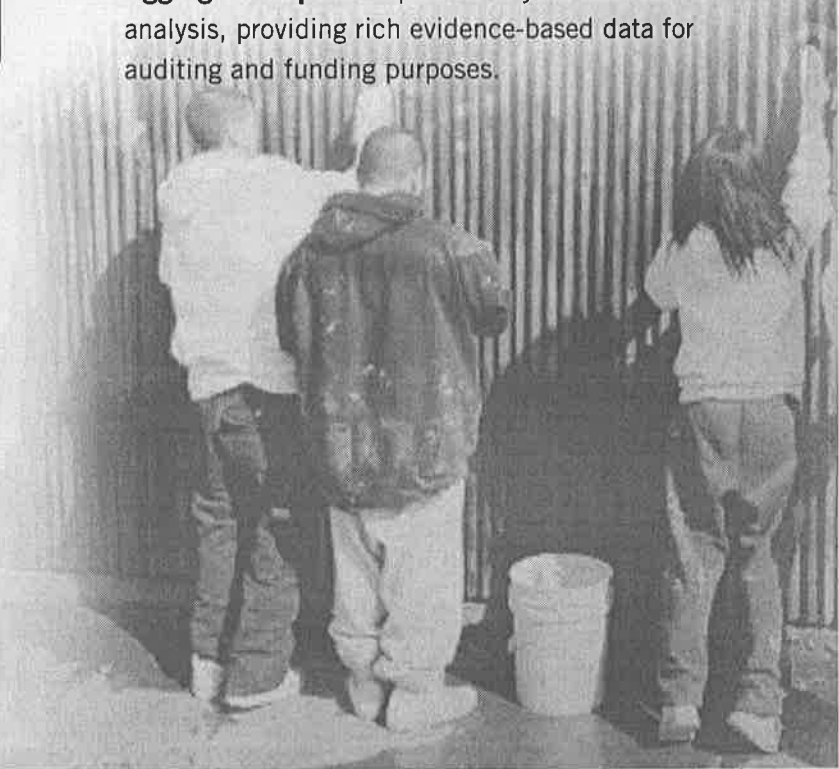

Reports

Profile Reports summarize the results of an individual administration, providing scores for all areas measured.

Comparative Reports combine the results of up to four different raters to provide an overview of an individual's scores.

Case Management Reports provide an administrative summary of the criminogenic and non-criminogenic needs of the offender, list special responsivity considerations, and include a discharge summary where applicable.

Aggregate Reports export all of your data for analysis, providing rich evidence-based data for auditing and funding purposes.

Specific Benefits of the YLS/CMI 2.0™

Caseworker

- Collects and records client information
- Helps with case planning
- Facilitates communication among professionals
- Helps track changes in the client
- Provides protection where judgment is questioned

Management

- Collects and records client information
- Collects and records data on services provided to clients
- Helps ensure consistency in decision making
- Assists in allocating resources within the agency
- Provides quality information for auditing and funding purposes

Researcher

- Collects valid and reliable information on young offenders

Join our Community of Users

The Level of Service Community of Users is a group composed of Level of Service and Youth Level of Service users, leaders, and researchers in public safety organizations around the world. It is a free-of-charge online community that allows professionals to share best practices, research policies, and procedures that work.

If you are interested in joining please send your contact information to: levelofservice@mhs.com or call 1-800-456-3003 ext. 269.
